

# ECO-CÓDIGO

2016-2017

**Be an eco-student , protect the environment!**

**To save water, certainly with it, you must not play!**

**Save water to achieve a better future!**

**If you find a tap dripping, don't hesitate, close it! Put a stop to the drop!**

**Recycling paper is saving trees!**

**Recycle! It's easy and cheap!**

**Batteries dead? Recycle instead!**

**The garbage has a destination! Make waste separation! Separated garbage is reusable!**

**Turn off your computer if you are not working!**

**Save energy, take advantage of natural light!**

**Use natural resources to create energy!**

**Every day is a good day to save energy!**

**What can you do to protect Biodiversity? Our forests and oceans are our precious resources, Let's protect them!**

**Protect the oceans, protect the future!**

**Eliminating pollution is the best solution!**

**Keep in mind global warming is a global warning!**
